To whom it may concern:

I would like to recommend Johnson Land Surveying as a preferred survey contractor. I have hired Johnson Land Survey to assist my company on a number of projects over the last several years. The quality of the work is impeccable. The owner, Robert Johnson, has taken extreme measures to assure that our needs were met in a cost effective and timely manner. When you have a company like Johnson Land Survey working for your company, you are assured that your company is truly represented in the best possible way. One example of the type of commitment that is offered by Johnson Land Surveying is, on a job in the middle of Oregon, I needed some direction drill as-builds and bore profiles completed. I did not want to slow the drill company down so as I was trying to schedule these activities with Robert Johnson, he suggested that he could send a crew out over the weekend. I met the crew on a Saturday and showed them where and what I needed. This saved me thousands of dollars in down time or possible delays. I can't say enough about how this survey company has helped me make my company stand out in a positive way.

Please feel free to contact me with any questions.

Sincerely
