

December 27, 2010

To Whom it may Concern:

I am pleased to offer a letter of recommendation for Johnson Land Surveying. Johnson Land Surveying (JLS) was contracted with the Oregon Zoo periodically from 2006 through July 2010.

JLS completed their work within scope, budget and schedule. They conducted themselves in a professional manner when on site, being mindful of our visitors and the impact of their work on the visitor experience. They were, as much as possible, unobtrusive. Working at the zoo may be difficult, access is limited and sometimes restricted to particular windows of time, but JLS was always responsive to our needs and accommodating when required.

JLS' documents were clear to read, detailed, and very helpful to the zoo and its consultants.

Although our contract with JLS has expired, they continue to demonstrate great integrity by responding to our inquiries when they come up regarding their past work at the zoo. This is under no contractual obligation on their part, and it has been a great help to the zoo.

I think the quality of their work and the integrity of their practice is worthy of consideration.

Sincerely,

Brent Shelby
